

Study Registry:

Center for Innovative **TR**Ials in **ChilDr**EN and **AdulT**s (TRIDENT) – COVID-19

Sponsors:

The Duke Clinical Research Institute (DCRI) and Pediatrix Medical Group

You are being referred to consider participation in a follow-up research study because you and/or your baby were diagnosed with a positive test for SARS-CoV-2, the coronavirus that causes COVID-19.

What is COVID-19 Virus? (reference: [cdc.gov/coronavirus](https://www.cdc.gov/coronavirus))

The virus that causes COVID-19 is a new coronavirus that has spread throughout the world. Coronavirus (COVID-19) is an illness caused by a virus that can spread from person to person. COVID-19 symptoms can range from mild (or no symptoms) to severe illness. Symptoms include fever, coughing, a sore throat and shortness of breath. Other symptoms can include runny nose, headache, muscle or joint pains, nausea, diarrhea, vomiting, loss of sense of smell, altered sense of taste, loss of appetite and fatigue.

Why is this study registry important?

Participating in the Study Registry will help us to better understand the medical and social outcomes of mothers and children that have been exposed and/or diagnosed with the COVID-19 virus. We do not know the long-term impact of this new infection on women or their newborn infants. Important information from this study will inform how we can improve therapies for pregnant women and their children.

What are the risks?

In any research, there is a possible risk of loss of confidentiality of the personal information you have provided. Every effort will be made to keep your baby's and your information confidential.

What will happen if I decide to enroll in this registry?

If you and your baby decide to enroll in this registry, you will follow the link to the website below to find out more about the study and provide your consent to enroll in the study. You will be contacted by the Registry Study Team via electronic communication or phone when your baby is 6 months and 1 year old. You will complete questionnaires about your child's medical status and release results from your doctor and your child's pediatrician.

To participate in this Registry, please type in the link below or use your phone to scan the QR code. When you get to the website, please enter the verification code below to find more information and read the Registry consent form.
