Company Overview

Mednax, Inc. is a comprehensive national medical group specializing in prenatal, neonatal and pediatric services. Physicians and advanced practitioners practicing as part of Mednax are reshaping the delivery of care within their specialties and subspecialties, using evidence-based tools, clinical research, education, continuous quality improvement and safety initiatives and telemedicine to enhance patient outcomes and provide high-quality, cost-effective care. The Company was founded in 1979, and today, through its affiliated medical groups and practices, Mednax provides services through a network of more than 2,300 physicians in 39 states and Puerto Rico. Additional information is available at mednax.com.

Mission

Take great care of the patient, every day and in every way.™

What We Do

Our physician-led health care organization partners with hospitals, health systems and health care facilities to offer clinical services spanning the women's and children's continuum of care. As a national medical group, our skilled clinicians collaborate across the care continuum to deliver high-quality and evidence-based care. Our specialty-driven education and continuous quality improvement and safety initiatives support clinicians and hospitals in achieving better patient outcomes while reducing care costs.

Together with our health care partners and providers, we develop customized solutions that benefit hospitals, patients and payors through:

- Optimizing clinical, financial and operational performance
Improving patient care and the total patient experience
Utilizing clinical tools, quality initiatives, training and robust data and research to optimize care quality and performance
